

Gonzaga Campus

About CSU Gonzaga

CSU-Gonzaga is one of the eight campuses of Cagayan State University that is known for its agro-forestry commodity due to its rich natural resources. Formerly known as Gonzaga National Agricultural and Technological School, on June 11, 1978 through the efforts of Defense Minister Juan Ponce-Enrile it is then called as **Cagayan State University**.

From then on, it continuously improved its course offerings where its nine programs are recently accredited by the Accrediting Agency of Chartered Colleges and Universities in the Philippines (AACCUP). Thus, its roster of esteemed faculty staff ranged from Master's to Doctorate degree holders proving that quality education is the prime responsibility and commitment of the university to its studentry and stakeholders.

It is dedicated in its zeal of commitment of offering quality service in all its programs and student services. Today, the campus continuously seeks excellence in all its four-fold functions of Instruction, Extension, Research, and Production. Another remarkable distinction of Cagayan State University – Gonzaga Campus is the Mount Tabungao. This mountain cradles all the aspirations of the campus from conception to birth; from birth to manhood; and from manhood to established status.

As Mount Tabungao continuously soar its peak, CSU-G also incessantly harbors and guarantees that learning will always be at its peak proving that education is always for the best, of the best, and by the best.

Facilities

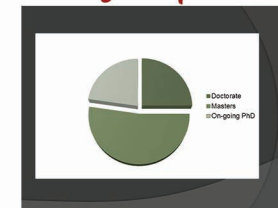

CSU Gonzaga is taking its leap on being ICT-ready. Classrooms are being installed with LED TVs and LCD projectors. CCTV cameras are also being mounted in some colleges for safety measures. The newly-renovated conference hall is also another vantage point of the campus where meetings and other transactions are conducted.

The library, aside from the learning resources and computers available, is also installed with WIFI.

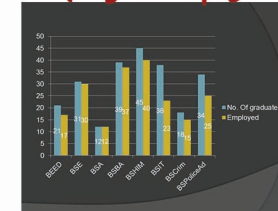

Enrollment is made easy through the online system called HEEDS (Higher Education Enrollment Decision Support) where students can already enlist their subjects on line. Grades can also be viewed on the system.

CSU-G is one step higher on its aim of making the campus fully a breast of the newest innovations in education.
